This document is derived from:

Core App Quality

<https://developer.android.com/distribute/essentials/quality/core.html>

" This page helps you assess the core aspects of quality in your app, through a compact set of quality criteria and associated tests. All Android apps should meet these criteria. Before publishing your apps, test them against these criteria to ensure that they function well on many devices, meets Android standards for navigation and design, and are prepared for promotional opportunities in the Google Play store. Your testing will go well beyond what's described here — the purpose of this document is to specify the essential quality characteristics all apps should display, so that you can cover them in your test plans. "

Prerequisites: none

Android Core Quality - part 1 (continued):

CR-0

CR-0a

Navigate to all parts of the app — all screens, dialogs and settings.

*PASS*_____ *FAIL*_____ *N/A*_____

CR-0b

change network connectivity/availability

*PASS*_____ *FAIL*_____ *N/A*_____

change battery function (low battery)

1. Verify the battery life remaining:

Settings>Battery

2. Current battery available percentage:_____

*PASS*_____ *FAIL*_____ *N/A*_____

change GPS or location availability

*PASS*_____ *FAIL*_____ *N/A*_____

change system load (start and/or stop other apps)

low memory

low system resources

*PASS*_____ *FAIL*_____ *N/A*_____

Notes:

Android Core Quality - part 1 (continued):

CR-0a

gameplay

PASS_____ FAIL_____ N/A_____

CR-0b

change network connectivity/availability

PASS_____ FAIL_____ N/A_____

change battery function (low battery)

1. Verify the battery life remaining:

Settings>Battery

2. Current battery available percentage: _____

PASS_____ FAIL_____ N/A_____

change GPS or location availability

PASS_____ FAIL_____ N/A_____

change system load (start and/or stop other apps)

low memory

low system resources

PASS_____ FAIL_____ N/A_____

Notes:

Android Core Quality - part 1 (continued):

CR-0a

media playback

PASS_____ FAIL_____ N/A_____

CR-0b

change network connectivity/availability

PASS_____ FAIL_____ N/A_____

change battery function (low battery)

1. Verify the battery life remaining:

Settings>Battery

2. Current battery available percentage: _____

PASS_____ FAIL_____ N/A_____

change GPS or location availability

PASS_____ FAIL_____ N/A_____

change system load (start and/or stop other apps)

low memory

low system resources

PASS_____ FAIL_____ N/A_____

Notes:

Android Core Quality - part 1 (continued):

CR-1

From each app screen, press Home, then re-launch the app.

PASS_____ FAIL_____ N/A_____

CR-2

From each app screen, switch to another app then return.

PASS_____ FAIL_____ N/A_____

CR-3

From each app screen or dialog, press Back.

PASS_____ FAIL_____ N/A_____

CR-5

From each app screen, rotate from landscape to portrait and back to landscape at least three times.

PASS_____ FAIL_____ N/A_____

Notes:

Android Core Quality - part 1 (continued):

CR-6

Switch to another app. Verify that the app and any associated services is no longer running.

prior to Android 4.0:

Settings>Manage Applications>Running

The app has no running services.

Android 4.0 and higher:

Settings>Apps>Running

The app has no running services.

*PASS*____ *FAIL*____ *N/A*____

CR-7

Press the power button to sleep, then press the power button to wake.

*PASS*____ *FAIL*____ *N/A*____

CR-8

Press the power button to lock. Press the power button to sleep, then press the power button to wake.

*PASS*____ *FAIL*____ *N/A*____

CR-9

Slide-out keyboards: slide the keyboard in and out three times.

*PASS*____ *FAIL*____ *N/A*____

Notes:

Android Core Quality - part 1 (continued):

CR-9

Keyboard docks: attach the keyboard dock and remove it three times.

*PASS*____ *FAIL*____ *N/A*____

CR-10

External displayport: plug in the external display and remove it three times.

*PASS*____ *FAIL*____ *N/A*____

CR-11

Trigger and observe all notifications that the app can display in the notifications drawer.

Android 4.1 and higher:

Expand notifications, and tap all actions.

CATEGORY_CALL

incoming voice call

Emulator: *PASS*____ *FAIL*____ *N/A*____

Device: *PASS*____ *FAIL*____ *N/A*____

incoming video call

Emulator: *PASS*____ *FAIL*____ *N/A*____
